Taking two preschoolers to the dentist is not easy, but Castle Peak Dental made the whole experience as fun, informative and comfortable as it could be. Shay was amazing! She's a total gem. She didn't bat an eye at the silly questions or or the squirmies...she connected with both of my girls and made it easy for them to trust her.

★★★★★ by Emily Green on 2016-06-23

Pain in my left jaw woke me up in the middle of the night. I had never experienced anything like it before. Thinking it was possibly tooth related I decided to call a dentist. My wife and I have recently moved to Gypsum. She had been to Castle Peak Dental on the recommendation of a friend for a routine cleaning and checkup and told me what a great experience she had with Dr. Albers and her staff. I called Dr. Albers and she told me to come in immediately. She efficiently and accurately diagnosed my problem and began the needed treatment that morning. I could not be more pleased with the outcome. A visit to the dentist can be intimidating to many people but I can highly recommend Dr. Albers and her staff at Castle Peak Dental to make it the most pleasant experience possible. David D. Nordin MD

Coming from Miami where I had a great, high-tech dentist, I was so happy my family found Castle Peak Dental in Eagle. It's a great practice. The doctors and all the staff are very professional, courteous and efficient. The dentistry is cutting edge with the latest in methods and equipment. The office is super warm and modern. The appointment/scheduling is very efficient with email and/or text reminders. I have already recommended to friends.

Everyone from the receptionist to the hygienist to the dentist is fabulous. We relocated from a small town in the Midwest where we thought the dental care to be competent but after getting our checkup and cleanings from Castle Peak we realized that there was so much more to our dental health, the most extensive and thorough exam we have ever had. Very friendly and professional staff. You leave with a smile on your face which is not usually equated with going to the dentist!

★★★★★ by Anon on 2016-03-22

There are so many dentists in the lower valley these days. We used to have just one when I grew up here. Consequently, you have to really stand out to make a difference. Only been twice, but I still really like your team, your high tech equipment, and think you stand out.

★★★★★ by Vern Brock on 2016-02-18

As far as the knowledge and know how in getting a patient/clients dental needs met..I'm sure the doctors and staff are more than qualified, however, when I left your office on Monday morning, 1/28, I could not believe I was railroaded into paying over two hundred dollars for a quick uncomfortable set of X-ray's revealing things I'm already aware of. I wasn't even told how my much that visit was gonna be! When I came in on the 23rd for pain and and an assessment, I assumed that charge and thank the office for getting me in and prescribing medicine. But that charge I assumed and thought by the way I was hurried into a follow up appointment, that the next step as far as payment went would be for actual work done. I live in Gypsum, have been up here for over a year, am a Colorado native and am setting up life up here. I work with very reputable HVAC Co here in Gypsum and my insurance starts Feb16th. I will be needing and getting dental work done. I feel that a refund of some sort of some kind of compensation, either in a dental visit to begin addressing my needs or in the like but I was very dissapointed with being charged like I was and zero to show or feel for it.

★★★★★ by Vincent Urioste on 2016-01-01

Always excellent service - Amy is one of the best dental hygienists our family has experienced and both dentists are very professional . The practice is extremely up to date on new dental technology to better evaluate and correct any of our dental issues. The only reason for 4 stars instead of 5 is that I would like the dentist to spend just a bit longer during the final stage of the exam, but that may be due to the overall confidence in their excellent hlhygienist, Amy. Overall, an excellent practice with a wonderful staff.

★★★★★ by Brian Wodrich on 2015-10-08

I am a brand new patient at Castle Peak Dental and was so impressed with the overall experience from how welcoming every single member of the staff was, to their knowledge and thoroughness. I felt like they truly cared about me as an individual, heard all my concerns, and made great suggestions for me to follow. Amy was my hygienist and she was both informative, as well as extremely friendly and made the experience enjoyable and the time in the dental chair fly by. Then I met with Dr. Albers, who was just as kind and thorough. I will definitely return and would highly recommend them to anyone who is looking for a superb dental experience!

Dental Hygentist is very thorough and nice. They use state of the art equipment I think, but sometimes I think that is just too much. They are very good with what your insurance covers and doesn't cover it seems. Some places have no clue and that can lead to added expenses.

★★★★★ by Debbie Corr on 2015-07-08

Everyone at Castle Peak is great! They are so welcoming. Getting my teeth cleaned is not my favorite thing to do but Amy was very patient and made me feel at ease. The office atmosphere is very professional but you can tell the staff loves what they do! I will recommend Castle Peak to friends and family. Thank you ladies!

I went for a routine check up to make sure that there are no major issues associated with my pregnancy and also to take our two kids. The kids finally enjoy their dental appointments and can't wait to go back. Every one in the office is super friendly. We all love our hygienist, a very sweet young lady that goes above and beyond to make all our family members comfortable and happy!

Though having my teeth cleaned isn't pleasant, I very much like the feeling of my teeth & mouth afterwards. Amy does an excellent job and is such a pleasant person. I appreciate her Very Much as a dental hygienist. It took a lot of time to make healthy one spot on the upper L side. But she and Dr. Summer Kassmel & Dr. Melanie Albers kept after it until it's healthy along with the rest of my mouth/teeth. I would recommend Castle Peak Dental and the friendly professionalism of all the personnel there to anyone in our area.

My 4 year old had the best experience! She came to see what a whole cleaning was about by seeing my (her moms appointment) beforehand as she has only had oral checks

before. The administration staff found her something to do when I did my x-rays and I didn't worry about her once. Amy, my hygienist, allowed her to sit on my lap to get closer looks and explained what she was doing to 'mommy' and how she would work on her later. She used wonderful kid-friendly words that got her excited for her own appointment. During her appointment, the tv was a great distraction. Amy continued to use kid-friendly words and both describe to Lilly what was going to happen next or educate me how to do the best care for her. Because of the wonderful atmosphere, she was able to complete partial x-rays, cleaning, flossing, and a fluoride treatment, WOW! Amy's encouragement about good teeth help has her excited at home to floss and brush.

My first time experience was amazing! I don't know how many people say that about a dentist but it was. Amy, my dental hygienist was the first in over 30 years to give me first rate service but also educate me in how/why to properly take care of my teeth. She was great dealing with computer problems that came up and went above and beyond to make my visit the best it could be. The administrative staff was top notch and gave my

4 year girl that came to see how the dentist worked a great experience too. They found her something to do during my x-rays and I did not worry for a moment the care she was being given. Thank you so much, I'm happy I found a new dentist this easily after recently moving to the area.
